**Teachers and Pupils:** Two new teachers were employed to replace those leaving the District last June. Mrs. Dorothy Jesseman, a graduate of Plymouth Teachers' College with a B. Ed. degree, became Principal and teacher of grades 6-8, replacing Howard Evans, who accepted a Principalship in Haverhill. Mrs. Christie Caldron of North Woodstock, replaced Mrs. Mable Cole who returned to her home in Walpole, New Hampshire. Mrs. Caldron teaches in grades 4 and 5.

**Buildings and Grounds:** Major repairs were made at the Village school during the summer by remodeling of the north end of the lower hallway to accomodate an enlarged toilet room for the girls in which sanitary flush toilets were installed, as well as radiation. The School Board is to be highly commended for this outstanding improvement to the school plant. It is hoped that a similar change may be made for the boys. General minor repairs were made to both school buildings.

The diligent work of the members of the newly organized Parent Teachers' Association deserves high praise. The playground equipment erected at both the Village and the Glencliff schools is a project of outstanding merit. The health of our youth is a serious matter, and one we too often neglect. The apparatus installed by the P. T. A. will have benefits undetermined by the casual observer. The teachers, School Board, and your Superintendent are especially grateful for this equipment.

**General Information:** During the year, the Co-operative Secondary School District Committee, composed of members of the School Board, Mrs. William Whitcher, and Mr. Fayne Anderson, met several times during the year. The findings of this committee show a need for such a Co-operative District. Many facts substantiate this premise, a few of which I present for your consideration:

1. A secondary school with less than 300 pupils cannot be economically administered. The proposed school would enroll 350-400 pupils, grades VII-XIII.
2. A small secondary unit cannot offer a program of sufficient scope to meet the varying interests of the majority of its students. The proposed school should include such additional practical courses as the following: Vocational Agriculture; Cabinet making; Sheet Metal work; Shop Mathematics; Distributive Education; Paper-hanging; Dress designing; and Beauty Culture.
3. The small secondary units necessitate duplication of instructors on the staff.

The secondary school to be effective as an educative institution, should offer a curriculum that will enrich our children's ability to do a better job in a complicated society. This can only be done by a school unit of sufficient size to include a faculty competent to offer a varied program.

**Conclusion:** I wish to express my appreciation to the Members of the School Board for their help in the administration of school affairs, to the residents of the district for their efforts on behalf of education, and to the teachers for their loyal and conscientious service.

Respectfully submitted, Phil A. Bennett, Supt. of Schools  
Warren, N. H., Feb 3, 1949.
